

Benefits for the individual

Application of Services

Elite Adventures believe that opportunities should be equal and available to all. That's why we open our 'outdoor classrooms' to any young person who can benefit from our services.

We have an 'open to all' policy, regardless of ethnicity, denomination or physical ability. Our programmes can offer hope and the chance for a new start for disengaged youths, who are Not in Education, Employment or Training (NEET), young offenders and disadvantaged young people and those who have found themselves within the Social Care services.

Offering an inclusive and wide-ranging provision, we can work with parents, pupil referral units, Youth Offending Services and family centres – helping to rebuild familial relationships and bring families back together.

Benefits for the individual.

The Elite Adventures organisation offers a variety of activities and qualifications for 11 – 19 year olds. Offering a stimulating yet secure environment, we are committed to achieving the 'Every Child Matters' 5 outcomes, by maximising opportunities and minimising risks.

We encourage participants to be personally and socially aware, giving them the platform to enjoy and achieve, while gaining essential learning and development skills.

With a wide range of transferable qualifications on offer individuals can access practical experiences such as canoeing, mountain biking, photography, food technology, First Aid training, bush craft and circus skills.

In addition to these 'hands on' activities, we can also assist young people with more emotional and social based skills including team building, emotional literacy, citizenship and community awareness.

We are working with The Prince's Trust and A.S.D.A.N as well as offering Key Skills accreditations, enabling young people to develop their ability to achieve personal economic well-being – easing their path into adulthood and preparing them for the working world.
